

it delivers...

Real-time trading news and exchange prices,
direct to your desk-top – **wherever you are.**

Brought to you by:

MetalBulletin
AMM

it delivers...

marketwatch is the totally portable, real-time solution for metal and steel traders everywhere.

Brought to you by the leading market information/price suppliers for the global industry, *Metal Bulletin* and *American Metal Market*, **marketwatch** can be accessed wherever you have internet access – on your lap-top whilst travelling, or even on your Blackberry™.

Featuring all the usual tools you need for effective trading – live exchange prices, news and powerful analysis, **marketwatch** also gives you these added benefits:

- ? As well as **live price feeds** from the major metals exchanges (LME, NYMEX and COMEX), you also get *Metal Bulletin's/AMM's* **globally accepted free-market steel, scrap and minor metal prices**;
- ? **Real-time news** from the world's largest metal news team – *Metal Bulletin* and *AMM* – guaranteeing you **coverage of ALL the global metals markets**;
- ? A wealth of charting functionalities for market analysis so you can spot trends quickly and easily and **make informed decisions in an instant**;
- ? Windows™ based, **easy-to-use layout** – most of the data you need is just one mouse click away, including a quick link to Excel™;
- ? **Second to none functionality** – no training required;
- ? **Customisable screens** – allowing you to organise your **marketwatch** in the format that most suits your needs;
- ? **True portability** – access **marketwatch** on the move - from your lap-top via a 3G card, via a regular internet connection, or even on your Blackberry™;
- ? **Cost effective** – more affordable than other real-time solutions;
- ? Automatic, **free system upgrades** for the life of your subscription.

In today's competitive markets, **marketwatch** delivers the **advantage** you need, when you need it, wherever you are!

Why choose marketwatch?

marketwatch has been developed by the world's leading providers of metals industry news, analysis and prices – *Metal Bulletin* and *AMM*. Established in 1913 and staffed by ex-traders, market analysts and the world's leading team of metals journalists, Metal Bulletin plc truly understands your business requirements and what you need to get the job done – **marketwatch** is developed by the industry, for your industry. **marketwatch** also delivers the following key benefits to specifically meet the needs of your daily work:

- ? **Instant information** – **marketwatch** is a real-time solution, delivering up-to-the-second prices from any exchange, including live price feeds from LME, NYMEX and COMEX;
- ? **Real-time non-exchange contributor prices** – for a range of metals and premiums;
- ? **Coverage of the entire metals trading markets:** steel prices, scrap prices and minor metal prices from the world's leading provider of free market metal prices (*Metal Bulletin* and *AMM*);
- ? **Analyse the market information you require at the click of a mouse** –

Other benefits:

- ? **Personal Service** – a dedicated account manager will look after your account personally;
- ? **24 hour support** – via the London, New York and Singapore offices;
- ? Automatic, **free system upgrades** for the life of your subscription;

Maximize your trading efficiency...
marketwatch has many features which make it one of the most efficient trading tools around, including:

? Superb functionality	? Live news feeds
? Charting studies	? Save/Restore
? Live exchange price feeds	? Quotes pages
? A comprehensive "Analysis Tool-Kit"	? And more advanced features!
? Single click Excel™ link	

marketwatch provides a wealth of analysis tools so you can customise the information you need quickly and easily;

- ? **Be 100% up-to-date on the news affecting your business** – live news from the industry's most respected news teams – *AMM* and *Metal Bulletin*;
- ? **Create your own view of the market** – customisable screens allow you to display the information in a format most appropriate to you;
- ? **Access your marketwatch wherever you are!**
 No need to be tied to the office, **marketwatch** is truly portable - you can access it on your lap-top or hand-held device from anywhere, provided you have internet access (via a 3G card, or ordinary cable connection);
- ? **Affordable** – no need to purchase expensive terminal equipment, **marketwatch** simply downloads onto your existing PC or lap-top in seconds.
marketwatch has competitive subscription rates too.

Superb functionality

marketwatch is probably the most easy-to-use system available anywhere – no need to learn codes, the easy-to-read screens are designed so you're only a mouse click away from anything you need, including:

- ? real-time futures exchange prices;
- ? live news feeds;
- ? options prices;
- ? warehouse stocks;
- ? valuations;
- ? FOREX and much more.

The **Drag and Drop** feature enables you to quickly move information between applications.

You can **build multiple custom pages** to monitor all your key markets/data, set news alerts and track important positions using intraday charting and portfolio trackers.

One-click link to Excel™ means you can quickly and easily drop data into Excel™ in order to create your own analysis.

ANALYSIS TOOL-KIT

marketwatch comes complete with a wealth of analysis tools to enable you to manipulate the market data however you choose.

If you wish to compare a commodity price across a time series or country series; or if you wish to track two metals against each other; or include trend lines, or extrapolate potential future trends; or view relative strength charts, and more, you can with **marketwatch**.

The advanced charting package provides powerful tools for identifying and tracking market opportunities. Daily, weekly and monthly (ten years) TIC and intraday charts are available for all commodities on the system.

All charts dynamically update to display the current price relative to the historic. You can draw trend lines, zoom in on a price range for a particular time interval and display grid lines.

CHARTING STUDIES

Each of the charts can be displayed as Candle Stick, Bar or Price with a simple mouse click.

Powerful technical studies can be overlaid or tiled on any chart, including:

- ? Moving Averages,
- ? Stochastics,
- ? Fibonacci,
- ? Bollinger Bands,
- ? RSI,
- ? Momentum Oscillator,
- ? Moving Average Oscillator,
- ? Trend lines,
- ? Trend channels,
- ? and many more.

You can create customised spreadsheets using complex algebraic formulae to chart the relationships of instruments.

SINGLE CLICK EXCEL™ LINK

marketwatch gives you the simplest linking of real-time information to Microsoft Excel™ spreadsheets you have ever seen. A single mouse-click will open Excel™ and export all data from any quote page. Plus, all prices linked to Excel™ dynamically update.

LIVE PRICE FEEDS

All the latest prices from the market exchanges (LME, NYMEX and COMEX) and *AMM/Metal Bulletin's* benchmark free market metal prices are all available on **marketwatch**.

All *AMM/Metal Bulletin* prices include a full historical archive, enabling you to view and analyse prices and history across a host of scrap, minor and ferro-alloy markets. All this data can be manipulated and modelled using the **marketwatch** analysis tools.

LIVE NEWS FEEDS

All the latest news from the industry's most respected metals news team – *AMM and Metal Bulletin* – live on **marketwatch**. The network of editorial offices includes London, New York, Los Angeles, Singapore, Tokyo, Sydney, Rio de Janeiro, Moscow, Lima, Johannesburg, Santiago, Paris and many more.

Other news feeds can also be added to your **marketwatch**, allowing you to create a truly personalised news service to meet your needs.

Keyword searches can also be defined for all news sources, with visual and audible alerts, so you never miss the latest scoop!

AMM

QUOTES PAGES

With **marketwatch**, live quotes are available instantly – absolutely no delay – from any markets, including the London Metal Exchange and COMEX, NYMEX and FOREX markets.

Optional services include a further 200,000 instruments including stocks, mutual funds, money market funds, other commodities etc.

Information can be displayed in various customisable ways – Full Quotes, Mini Quotes, Chains and Quote Lists. Many price movements are colour coded to easily display up or down tick movements.

Even without customisation, **marketwatch** is ready to go as soon as you download it, coming with pre-built pages delivering all the essential metals market data in an easy to view format.

SAVE/RESTORE ALLOWS FULL CUSTOMISATION

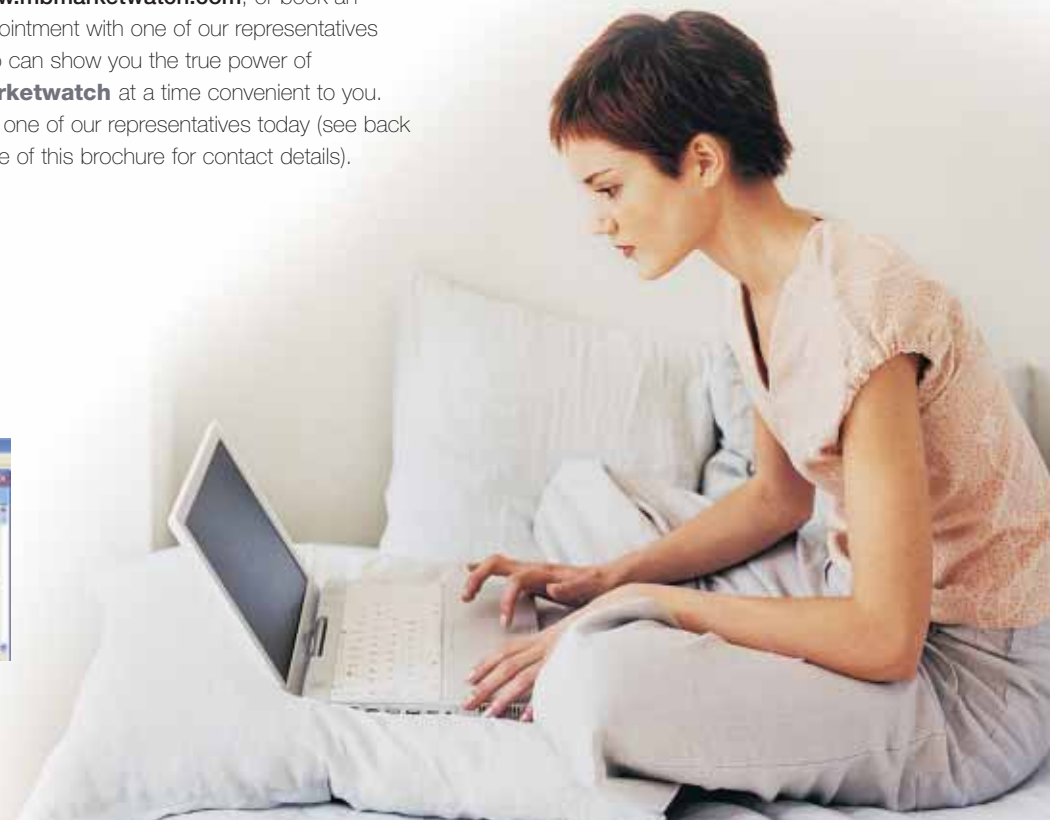

To make your life even easier, **marketwatch** comes complete with the facility to save and restore your customised screen profiles, so you can always go straight to your preferred view of the markets. Screen profiles can consist of any combination of quotes, news and charts.

Multiple screen profiles can be customised to your individual trading requirements and then saved, ready to restore and be updated with the latest data the next time you need them.

ADVANCED FEATURES

marketwatch comes with a number of additional powerful features, including personalised portfolios, symbol directory, web surfing, historical data export and convenient access to the more popular Microsoft tools.

Need reassurance? Read on...

marketwatch is affordable and cost effective. Monthly payment plans (**marketwatch** is based on a minimum of 12 months subscription) and special deals if you take more than one screen to **marketwatch**, mean it is really affordable for your business.

marketwatch is a real alternative to other screens, such as Reuters and Bloomberg – providing the same prices at the same speed, PLUS providing a range of metals/steel/scrap prices that others cannot. *Metal Bulletin* and *American Metal Market* have the largest metals editorial team in the world. **marketwatch** also provides a wide range of analysis tools making it a market leading trading solution for metal and steel traders everywhere.

Technical Specifications...

marketwatch does not require state of the art equipment, lots of memory, or the latest operating platforms in order to deliver the powerful trading tools you need . . .

System Requirements:

- ? Min. of 166 MHz PC
- ? 32 MB of RAM
- ? 10 MB hard disk space
- ? A mouse or trackball
- ? Any windows operating platform from Windows NT, Windows 98 through to XP.
- ? Internet connection (via a GPRS or 3G card, 56k modem dial-up, wireless ADSL or broadband).

That's it!

marketwatch can be used wherever you have Internet access – if you have a lap-top with access to the Internet, the sky's the limit, even then, some airlines are now providing in-flight Internet connections, so not even the sky is the limit anymore!

marketwatch is a reliable, stable platform, available 24 hours a day, 7 days a week. It has a resilient back-up system. Security Dealing Systems, **marketwatch's** software partner, provides systems directly to exchanges, guaranteeing 100% resilience and reliability.

marketwatch data is 100% accurate – it takes its prices and data direct from the major exchanges, LME, NYMEX and COMEX. Other pricing data (steel, scrap, minor metals) comes from the

industry's leading price assessors – *AMM* and *Metal Bulletin*, whose prices are the globally accepted benchmark free market prices. These are posted LIVE – as soon as the price is released, only on **marketwatch**.

marketwatch is easy to set up. You simply download a single piece of software. Once installed, the system is ready to run. Your Account Manager will run through the whole installation process and will be able to help with any problems you may encounter.
